

STATIC STICKERS

All Artwork Is For Reference Only

These are not substitutes for UPC stickers.

DESCRIPTION
<p>Static Stickers Static clings are made from a thin plastic film that “clings” to different surfaces with static electricity. Static cling will cling to smooth surfaces, typically glass, but also plastic, metal and glazed ceramics. There is no adhesive used on statics.</p>

Use when you need labeling but do not want the gum of an adhesive sticker left on the product.

Visual Example

NOBLE EXCELLENCE
